PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience designing, developing, and maintaining scalable web applications. Proficient in Laravel, PHP, JavaScript, Vue.js, React.js, Golang, RESTful APIs, and database management, with hands-on experience in microservices, third-party API integration, and performance optimization.

WORK EXPERIENCE

Full Stack Developer
Jan 2026 – Present

PT Luxindo Wisata Hospitality

- Designed hotel/vendor search and availability logic, including dynamic pricing, surcharge handling, and advanced room filtering.
- Integrated HyperGuest to aggregate real-time inventory and pricing data.
- Developed offline availability calculation for vendor-managed inventory to maintain consistency with external providers.
- Optimized Laravel Eloquent queries using eager loading and relationship constraints to prevent N+1 issues.

Full Stack Developer
Nov 2022 – Dec 2025

JangkarTech (PT Jangkar Teknologi Indonesia)

- Designed and implemented microservices architecture for a modular SaaS platform.
- Developed independent Purchasing, Warehouse, Fleet, and Human Resources services.
- Implemented webhook-based, event-driven communication between services.
- Built scalable RESTful APIs for internal systems and external integrations.

Back End Developer
Jun 2022 – Nov 2022

PT Kinarya Alihdaya Mandiri

- Developed the backend for Jangkar Logistik, supporting drivers in managing delivery jobs and customer orders.
- Maintained and supported the TWIN website and related application systems.
